Subject: The Local Control Funding Formula (LCFF) requires that all California school districts develop the Local Control Accountability Plan (LCAP). The LCAP is intended to be a comprehensive planning tool for districts in developing goals, specific actions, and expenditures related to the eight state and additional local priorities as outlined in the LCAP template. The state priorities include conditions for learning, pupil outcomes, and engagement of parents and students with the overall goal of increasing student achievement for all. The development of the plan requires input from parents, teachers, staff, and students.

Funds received through the Local Control Funding Formula include both a Base Grant to be used to ensure student achievement for all students, as well as Supplemental funds to be used for at-risk student groups who may require more time and support to close achievement gaps. Both funds are included in the LCAP plan.
